Mission Moments: A major obstacle to development in many vulnerable countries is that too many women and girls are unable to pursue their hopes and goals, hindered by discrimination and inequality. In Afghanistan, sports are generally maledominated, but Fahima had a talent for cricket and longed for the chance to play. Presbyterian World Service & Development's Girls Education Program equips schools with sports equipment and leads awareness raising sessions on the benefits of physical education for students' cognitive development. Fahima's school is participating in the program and now has sessions dedicated for girls to play sports. The young athlete could not be more thrilled. “The school made a cricket team and I was selected as captain,” shares Fahima. “I plan on leading my team to victory!”
